

Kyocera KPC680

features

The Kyocera KPC680 Aircard offers you the freedom to access data anytime, anywhere. With its easy installation, versatility, and high-speed connections, the PASSPORT Aircard makes your laptop truly mobile.

- 3G 1xEV-DO PC card.
- High-speed wireless data access of up to 2.4 Mbps.
- Dual-band receive diversity and high-performance antenna design allows for higher data rates and improved coverage.
- Easy to install and use—no wires, phone jacks, or separate Internetservice provider (ISP) required.
- LED indicator for power availability and data transfer status.
- Intuitive EVDO Watcher software for easy installation and connection management.
